SUBJECT: Telephone survey of facilities thought to handle
asbestos or products containing asbestos
TDD # R-07-8601-06

In support of TDD # R-07-8601-06, ANCHOR PACKING CO. was contacted by telephone to determine if they currently use asbestos or had used it in the past at their facility. Based on the information obtained during the telephone survey, this site has been identified as currently handling asbestos or had handled asbestos in the past.

I. SITE IDENTIFICATION

Site name: ANCHOR PACKING CO.
Address: 338 HANLEY IND. COURT, ST. LOUIS, MO 63144
Current phone number: (314)645-2753
Owner/Operator of site: ANCHOR PACKING CO.
Person Contacted : DAVID G. FAULHABER
Date contacted by phone: 04/08/86 Investigator: M. MAYO

It is our recommendation that a preliminary assessment SHOULD be scheduled to better characterize if any environmental problems exist on the site with respect to present or past handling and/or disposal of asbestos at this facility. The preliminary assessment should also determine if the site is currently regulated for asbestos.

EPA Form 2070-8 is included as an attachment to this report along with a copy of the original telephone survey form.

POTENTIAL HAZARDOUS WASTE SITE IDENTIFICATION

NOTE: The initial identification of a potential site or incident should not be interpreted as a finding of illegal activity or confirmation that an actual health or environmental threat exists. All identified sites will be assessed under the EPA's Hazardous Waste Site Enforcement and Response System to determine if a hazardous waste problem actually exists.
